Ibiza Sound Movement

A NEW DIMENSION OF SOUND_

The audio experience is powered by THE SOUND IBIZA (TSI), boasting custom speakers and subwoofers that transmit unique emotions through vibrations. The sound is exceptionally clear, free of distortion, and simultaneously powerful without causing disruption. The Sound Ibiza system not only refrains from assaulting the eardrums but also leverages the listener's body as a resonance box, delivering a crisp, distortion-free sound that retains its potency without causing disturbance.
